Depreciation Protection Inc. is the leading provider of equity protection products in the United States. Designed to protect the positive equity in an auto loan, the Depreciation Protection Waiver (DPW) goes where traditional products cannot. DPW is designed to help the borrower recover from the negative impacts of vehicle depreciation upon total loss.

Protective Asset Protection has been protecting vehicle owners for more than 60 years. Our protection products provide opportunities to drive member satisfaction and retention. We support our credit union partners with industry-leading training, business development, marketing, and customizable incentive program solutions. Let's work together to better protect your members.

Primeritus Financial Services delivers world-class services for recovery, skip-tracing and remarketing to the finance community, while passionately serving our clients, partners, employees and shareholders.
